The School Accountability Report Card (SARC) which is required by law to be published annually, contains information about the condition and performance of each California public school. More information about SARC requirements is available on the SARC Web page at <http://www.cde.ca.gov/ta/ac/sa/>. For additional information about the school, parents and community members should contact the school principal or the district office.

Section I - Data and Access

DataQuest is an online data tool located at <http://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district, the county, and the state. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g. Academic Performance Index [API], Adequate Yearly Progress [AYP], test data, enrollment, graduates, dropouts, course enrollments, staffing, and data regarding English learners.

Internet access is available at public libraries and other locations that are publicly accessible (e.g. the California State Library). Access to the Internet at libraries and other locations is generally provided on a first-come, first-served basis. Other use restrictions include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

Section II - About This School

School Description and Mission Statement

This section provides information about the school's goals and programs.

Located in the heart of San Francisco, Raoul Wallenberg Traditional High School offers a rigorous and personalized educational program that prepares our diverse students for college success and career achievement. We are committed to ensuring that our students have equitable educational outcomes and to enhancing each student's creativity, self-discipline, and ability to act as responsible citizens. Founded in 1981 in honor of the renowned Swedish diplomat Raoul Wallenberg, the school motto, "The individual can make a difference" guides our school culture and community service requirement. We provide students with a supportive, safe and caring small school environment that emphasizes academics, athletics, the arts and student involvement in clubs and extracurricular activities. We offer Honors and Advanced Placement courses in all core subjects. Our Bio-Technology Pathway offers students a health services curriculum and our partnership with Kaiser Hospital provides summer internships. Students are challenged, encouraged and inspired by a dedicated and talented faculty and staff.

Opportunities for Parental Involvement

This section provides information about opportunities for parents to become involved with school activities.

Wallenberg High School welcomes parental and caregiver involvement at all levels: as visitors, volunteers, organizers and decision-makers. Parents are encouraged to join the Parents, Teachers, and Students Association (PTSA) under the leadership of parent Calvin Yee. Parents are active members of the School Site Council (SSC), the School Advisory Committee (SAC) and the English Learners Advisory Committee (ELAC). The SSC is a decision-making body comprised of faculty, administrators, support staff, students and parents. We offer Back-to-School Night and Family Literacy Nights so that parents can meet with teachers and be informed about how to actively participate in their child's education. We communicate regularly with our parents and caregivers via School Loop, auto-dialer, teacher phone calls and e-mail regarding student progress, concerns, and celebrations. Primary language support is provided in Chinese and Spanish. Wallenberg parents and caregivers are an integral and invaluable part of our community.

Student Enrollment By Grade Level (School Year 2008-09)

This table displays the number of students enrolled in each grade level at the school.

Section III - School Climate

School Safety Plan (School Year 2008-09)

Wallenberg is a safe and caring school community. Our school rules are designed to ensure that we treat each other with respect, work together to resolve issues and care for the well-being of each member of our school community. Our Wellness Center provides students a place to go when they have concerns about their physical, emotional and mental health. We offer health lessons on nutrition, diet and exercise as well as about avoiding drugs and violence. All visitors must sign in at the office, and we routinely practice procedures in case of fire or earthquake. Our campus security team is dedicated to building positive relationships with students and ensuring a secure and protected campus. Wallenberg has a Crisis Response Plan in place and emergency supplies on hand in the event of a disaster.

Suspensions and Expulsions Number of incidents divided by the total enrollment at the school and district

Section IV - School Facilities

School Facility Conditions and Improvements

Wallenberg is housed in a mid-century modern building on a small campus located in a quiet and safe neighborhood. Wallenberg has easy access to the Presidio, Golden Gate Park and the Civic Center. The school is regularly checked for ADA facility compliance. In addition, Wallenberg is slated for major ADA renovations beginning Summer 2009: a new elevator will be installed at the south entrance, restrooms will be upgraded and a new building will house a library, an upgraded computer lab, and three new classrooms. Our two custodians work daily to keep our school clean and orderly and work orders are placed as needed to keep our school and grounds in good repair.

Core Academic Classes Taught by No Child Left Behind Compliant Teachers, 2008-09

This table displays the percent of classes in core academic subjects taught by No Child Left Behind (NCLB) compliant and non-NCLB compliant teachers at the school, at all schools in the district, at high-poverty schools in the district (75 or more in free/reduced lunch meal program), and at low-poverty schools in the district (25% or less in free/reduced lunch meal program). More information on teacher qualifications required under NCLB can be found on the CDE Improving Teacher and Principal Quality Web page at <http://www.cde.ca.gov/nclb/sr/tq/>.

Section VI - Support Staff

Academic Counselors and Other Support Staff (School Year 2008-09)

This table displays, in units of full-time equivalents (FTE), the number of academic counselors and other support staff who are assigned to the school and the average number of students per academic counselor. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50% of full time. Note: For various reasons, including funding sources and employees serving multiple locations, many of the staff in these positions are listed as working at central administrative offices, and so, will not show up under a particular school's staffing count. If additional information is needed regarding staffing in these particular support roles, please contact the school.

Section VII - Curriculum and Instructional Materials

Quality, Currency, and Availability of Textbooks and Instructional Materials

For High Schools (grades 9-12) The San Francisco Unified School District adopts instructional materials following the cycle of state frameworks and standards, and provides sufficient textbooks for all students to use in class and to take home in the core curriculum areas of reading/language arts, mathematics, science, and history/social studies. Instructional materials were adopted by the SFUSD Board of Education for the 2009-2010 school year and were provided for all high school students enrolled in advanced algebra, economics, environmental science and algebra and trigonometry classes. Class sets of health instructional materials were provided for high school health teachers. In addition, other Board-adopted core curriculum materials were provided to remedy all insufficiencies identified through a survey and other activities at the annual Instructional Materials Hearing at the October 13, 2009 meeting of the Board of Education. All adopted high school instructional materials have been evaluated and determined locally to meet state standards for grades 9-12. Appropriate science laboratory equipment is available for all laboratory science courses.

Section VIII - School Finances

Expenditures Per Pupil and School Site Teacher Salaries (Fiscal Year 2007-08)

This table displays a comparison of the school's per pupil expenditures from unrestricted (basic) sources with other schools in the district and throughout the state, and a comparison of the average teacher salary at the school site with average teacher salaries at the district and state levels. The option to report expenditures and salaries for the benefit of all schools in the district equally has been used. Detailed information regarding school expenditures and teacher salaries can be found at the CDE Web site at <http://www.cde.ca.gov/ds/fd/ec/> and <http://www.cde.ca.gov/ds/fd/cs/>.

Level	Total Expenditures Per Pupil	Expenditures Per Pupil Supplemental	Expenditures Per Pupil Basic	Average Teacher Salary

Types of Services Funded (Fiscal Year 2008-09)

Programs and supplemental services that are available at the school and funded through either categorical or other sources.

Additional programs and supplemental services available to Wallenberg students include: the Gifted and Talented Program (GATE); the Bio-Technology Pathway which receives funding from Career Technical Education; and additional funding for our students who receive English language development classes and for our students who qualify for special educational services. Wallenberg has a Wellness Center offering free medical and mental health services provided by three professional health care workers in association with the Department of Children, Youth and Family, and community organizations such as Westside and Asian Resource Network; a Beacon Center that provides after-school tutoring, extra-curricular and club programs, and a 21st Century Program that offers after-school tutorial and enrichment programs.

Teacher and Administrative Salaries (Fiscal Year 2007-08)

Detailed information regarding salaries can be found at the CDE Web site at <http://www.cde.ca.gov/ds/fd/cs/>.

Category	District Amount	State Average For Districts In Same Category

Percent of Budget for Administrative Salaries	5%	6%

Section IX - Student Performance

Standardized Testing and Reporting Program

The Standardized Testing and Reporting (STAR) Program consists of several key components, including the California Standards Tests (CSTs); The California Modified Assessment (CMA), and the California Alternate Performance Assessment (CAPA). The CSTs show how well students are doing in relation to the state content standards. The CSTs include English-language arts (ELA) and mathematics in grades 2 through 11; science in grades 5, 8 and 9-11; and history-social science in grades 8 and 10-11. The CAPA includes ELA, mathematics, and science in grades 2-11, and for science for grades 5, 8 and 10. The CAPA is given to those students with significant cognitive disabilities which prevent them from taking either the CSTs with accommodations or modifications or the CMA with accommodations. The CMA includes ELA and mathematics for grades 3-8 and science in grade 5 and is an alternative assessment that is based on modified achievement standards. The CMA is designed to assess those students whose disabilities preclude them from achieving grade-level proficiency on an assessment of the California content standards with or without accommodations. Student scores are reported as performance levels. Detailed information regarding the STAR program results for each grade and performance level, including percents of students not tested, can be found on the CDE Standardized Testing and Reporting (STAR) results web site at <http://star.cde.ca.gov>. Program information regarding the STAR program can be found in the Explaining 2008 STAR Program Summary Results to the Public guide at <http://www.cde.ca.gov/ta/tg/sr/documents/starpkt5intrpts.pdf>. Note: Scores are not shown when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy. In no case shall any group score be reported that would deliberately or inadvertently make public the score or performance of any individual student.

STAR Results for All Students - Three-Year Comparison

California High School Exit Examination

The California High School Exit Examination (CAHSEE) is primarily used as a graduation requirement. However, the grade 10 results of this exam are also used to establish the percentages of students at 3 proficiency levels (not proficient, proficient, or advanced) in ELA and mathematics in order to compute Adequate Yearly Progress (AYP) designations as required by the federal NCLB Act of 2001. Detailed information regarding CAHSEE results can be found at the CDE web site at <http://cahsee.cde.ca.gov/>. Note: Scores are not shown when the number of students tested is 10 or less, either because the number of students in this category is too small for statistical accuracy, or to protect student privacy.

California Physical Fitness Test Results (School Year 2008-09)

The California Physical Fitness Test is administered to students in grades 5, 7, and 9 only. This table displays by grade level the percent of students meeting fitness standards for the most recent testing period. Detailed information regarding this test, and comparisons of a school's test results to the district and state levels, may be found at the CDE web site at <http://www.cde.ca.gov/ta/tg/pf/>. To protect student privacy, scores are not shown when the number of students tested is 10 or less.

Grade Level	Percent of Students Meeting Fitness Standards		
	Four of Six Standards	Five of Six Standards	Six of Six Standards
Grade 5	0.0	0.0	0.0
Grade 7	0.0	0.0	0.0
Grade 9	11.4	27.8	50.6

Section X - Accountability

Academic Performance Index

The Academic Performance Index (API) is an annual measure of the academic performance and progress of schools in California. API scores range from 200 to 1,000, with a statewide target of 800. Detailed information about the API can be found at the CDE Web site at <http://www.cde.ca.gov/ta/ac/ap/>.

API Ranks - Three-Year Comparison

The statewide API rank ranges from 1 to 10. A statewide rank of 1 means that the school has an API score in the lowest 10 percent of all schools in the state, while a statewide rank of 10 means that the school has an API score in the highest 10 percent of all schools in the state. The similar schools API rank reflects how a school compares to 100 statistically matched "similar schools". A similar school rank of 1 means that the school's academic performance is comparable to the lowest performing 10 schools of the 100 similar schools, while a similar schools rank of 10 means that the school's academic performance is better than at least 90 of 100 similar schools.

API Rank	2006	2007	2008
Statewide	5	6	4
Similar Schools	5	6	2

API Growth by Student Group - Three-Year Comparison

Group	Actual API Change			Growth API Score
	2006-07	2007-08	2008-09	2009
All Students at the School	12	-35	69	744
African American	-31	-55	59	560

Students with Disabilities				

Adequate Yearly Progress

The federal NCLB Act requires that all schools and districts meet the following Adequate Yearly Progress (AYP) criteria:

- 1) Participation rate on the state's standards-based assessments in English-language arts (ELA) and mathematics
- 2) Percent proficient on the state's standards-based assessments in ELA and mathematics
- 3) API as an additional indicator
- 4) Graduation rate (for secondary schools)

Detailed information about AYP, including participation rates and percent proficient results by student group, can be found at the CDE Web site at <http://www.cde.ca.gov/ta/ac/ay/>.

AYP Overall and by Criteria (2008-09)

Indication of whether the school and the district made AYP overall and whether the school and district met each of the criteria.

AYP Criteria	School	District
Overall	Yes	No
Participation Rate - English-Language Arts	Yes	Yes
Participation Rate - Mathematics	Yes	Yes
Percent Proficient - English-Language Arts	Yes	No
Percent Proficient - Mathematics	Yes	No
API	Yes	Yes
Graduation Rate	Yes	Yes

Federal Intervention Program (School Year 2009-10)

Schools and districts receiving federal Title I funding enter Program Improvement (PI) if they do not make AYP for two consecutive years in the same content area (English-language arts or mathematics) or on the same indicator (API or graduation rate). After entering PI, schools and districts advance to the next level of intervention with each additional year that they do not make AYP. Detailed information about PI identification can be found at the CDE Web site at <http://www.cde.ca.gov/ta/ac/ay/>.

Indicator	School	District
Program Improvement Status		In PI

Year in Program Improvement		Year 3
Number of Schools Currently in Program Improvement	----	31
Percent of Schools Currently in Program Improvement	----	27.7 %

Section XI - School Completion and Postsecondary Preparation

Admission Requirements for California Public Universities

University of California Admission requirements for the University of California (UC) follow guidelines set forth in the Master Plan, which requires that the top one-eighth of the state's high school graduates, as well as those transfer students who have successfully completed specified college work, be eligible for admission to the UC. These requirements are designed to ensure that all eligible students are adequately prepared for University-level work. For general admissions requirements please visit the University of California Web site at <http://www.universityofcalifornia.edu/admissions/general.html>.

California State University Admission requirements for the California State University (CSU) use three factors to determine eligibility. They are specific high school courses; grades in specified courses and test scores; and graduation from high school. Some campuses have higher standards for particular majors or students who live outside the local campus area. Because of the number of students who apply, a few campuses have higher standards (supplementary admission criteria) for all applicants. Most CSU campuses utilize local admission guarantee policies for students who graduate or transfer from high school and colleges that are historically served by a CSU campus in that region. For general admissions requirements please visit the California State University Web site at <http://www.calstate.edu/admission/>.

Dropout Rate and Graduation Rate

Detailed information about dropout and graduation rates can be found at the CDE Web site at <http://dq.cde.ca.gov/dataquest/>.

Indicator	School			District			State		
	05-06	06-07	07-08	05-06	06-07	07-08	05-06	06-07	07-08
Dropout Rate (1 year)	0.6	4.6	3.4	1.7	4.9	4.5	3.5	4.4	3.9
Graduation Rate	98.6	88.4	89.9	91.8	86.0	84.4	83.4	80.6	80.2

Completion of High School Graduation Requirements (School Year 2008-09)

Students in California public schools must pass both the English-language arts and mathematics portions of the California High School Exit Exam (CAHSEE) to receive a high school diploma. For students who began in 08-09 school year in the 12th grade, as evidenced by that school year's October CBEDS enrollment, the table displays by student group the percent who met all state and local graduation requirements for grade 12 completion, including having passed both portions of the CAHSEE or received a local waiver or state exemption. Detailed information about the CAHSEE can be found at <http://www.cde.ca.gov/ta/tg/hs/>.

Note: 'N/A' means that the student group is not numerically significant

Career Technical Education Programs (School Year 2007-08)

The Career Technical Education Program (formerly called School-to-Career) is a sequence of courses that provides students with a coherent and rigorous content aligned with challenging academic standards and relevant technical knowledge and skills needed to prepare for further education and careers in current or emerging professions.

Career Technical Education Participation (School Year 2008-09)

<i>Measure</i>	<i>CTE Program Participation</i>
Number of Pupils	375
Percent of pupils completing a CTE program and earning a high school diploma	100
Percent of CTE courses sequenced or articulated between the school and institutions of postsecondary education	0

Courses for University of California and/or California State University Admission

This table displays for the most recent year two measures related to the school's courses that are required for University of California (UC) and/or California State University (CSU) admission. Detailed information about student enrollment in and completion of courses required for UC/CSU admission can be found at the CDE Web site at <http://dq.cde.ca.gov/dataquest/>.

<i>Indicator</i>	<i>Percent</i>
Students Enrolled in Courses Required for UC/CSU Admission	76.0
Graduates Who Completed All Courses Required for UC/CSU Admission	50.0

Advanced Placement Courses

This table displays for the most recent year the number of Advanced Placement (AP) courses that the school offered by subject and the percent of the school's students enrolled in all AP courses. Detailed information about student enrollment in AP courses can be found at the CDE Web site at <http://dq.cde.ca.gov/dataquest/>.

Section XII - Instructional Planning and Scheduling

Professional Development Information about the program for training the school's teachers and other professional staff.

Professional development is a part of every site plan and a major component of instructional support to departments. The district's professional development program provides opportunities for teachers to implement the district's core curriculum for all students, update subject area expertise, use data to plan instructional improvement strategies and acquire new instructional strategies. Leadership development across content areas is facilitated centrally, and for educators and parents each school continues to provide three full days of professional development during the academic year.

Section XIII - National Assessment of Educational Progress

National Assessment of Educational Progress

The National Assessment of Educational Progress (NAEP) is a nationally representative assessment of what America's students know and can do in various subject areas. Assessments are conducted periodically in mathematics, reading, science, writing, the arts, civics, economics, geography, and U.S. history. Student scores for reading and mathematics are reported as performance levels (i.e., basic, proficient, and advanced) and the participation of students with disabilities (SD) and English language learners (ELL) is reported based on three levels (identified, excluded, and assessed). Detailed information regarding the NAEP results for each grade, performance level, and participation rate can be found on the National Assessment of Educational Progress Web page at <http://nces.ed.gov/nationsreportcard/>.

Note: Only a sample group of California's schools and districts participate in the NAEP testing cycle. Therefore, students in any particular school or district may not be included in these results. The NAEP reflects state test results and is not reflective of either the LEA or the individual school. Comparisons of student performance on the NAEP and student performance on the Standardized Testing and Reporting (STAR) program assessments cannot be made without an understanding of the key differences between the two assessment programs. For example, the NAEP only assesses grades 4, 8 and 12 and for long-term trends assesses grades 9, 13 and 17. Additionally, the NAEP only provides state test results for grades 4 and 8. The California Standards Tests (CSTs) are based on a different set of standards than the NAEP assessments. For example, the NAEP is not aligned with California academic content and achievement standards and, therefore, does not necessarily reflect the curriculum and instruction to which students are exposed in the classroom. The NAEP assesses reading and writing separately, while the CSTs assess English-language arts (ELA), encompassing reading as well as writing conventions, spelling, and grammar. Scores on the CSTs and other assessments are not directly comparable to those on the NAEP. The averages and percentages presented are estimates based on samples of students rather than on entire populations. Finally, the questions students respond to are only a sample of the knowledge and skills covered by the NAEP frameworks. Information on the differences between NAEP and CST can be found on the CDE National Assessment of Educational Progress (NAEP) Web page at <http://www.cde.ca.gov/ta/tg/nr/>.

NAEP Results By Grade Level - All Students

This table displays the scale scores and achievement levels on the National Assessment of Educational Progress Results for reading (2007) and mathematics (2009) for grades 4 and 8.

Subject and Grade Level	Average Scale Score		% at Achievement Level		
	State	National	Basic	Proficient	Advanced
Reading 2007, Grade 4	209	220	30	18	5
Reading 2007, Grade 8	251	261	41	20	2
Math 2009, Grade 4	232	239	41	25	5
